Dear Peter Warren Gester Memorial Grant Donors,

Thank you for generously supporting my research project with your scholarship of \$3000. These funds greatly contributed to my successful field season this summer. I have been studying the genesis and architecture of a regional correlative basal incision surface and the subsequent fill history of the informal middle member of the Eagle Formation in south-central Montana. Your scholarship has helped me secure room and board for the field season, cover transportation costs, order thin sections and well logs, and cover maintenance fees for ground penetrating radar and electrical resistivity survey equipment. I was able to collect a lot of interesting and useful data, and had a great time working in the field. Thank you for your support.

Sincerely,

Neal Auchter
