

Dear Foundation Board of Trustees,

I am writing to express my gratitude for the generous Grant-In-Aid Richard W. Beardsley Award that has been given to me to support my research. I feel honored that you chose to help me with your donation. I could not have asked for anything better and feel lucky that you gave me so much. I apologize if this "Thank You" took a while to reach you, I haven't been able to open it until now. When this award letter was sent to my Western Michigan University mailbox I was on my way to Oklahoma for a summer internship and did not return home until yesterday. This internship was also a result of an AAPG event, so again I have your organization to thank. I plan to work hard this semester and plan to defend my thesis by December. Your contribution has and will help my progress greatly.

Thank You!

Peter Fetz
