

## Overview

The AAPG Foundation was established in 1967 by the AAPG leadership to carry out scientific, educational objectives through the use of charitable, tax-deductible gifts and contributions from geoscientists and corporate entities.

In 1978, the AAPG Foundation Trustees officially recognized a distinguished group of contributors, known as the AAPG Foundation Trustee Associates. This select group was organized for the purpose of:

- Supporting the AAPG Foundation
- Providing counsel and leadership to its Trustees
- Lending support to its fundraising efforts
- Guiding the scientific and educational agenda which it underwrites

Today, there are more than 280 Trustee Associates who play a stellar role in the development of the AAPG Foundation's financial resources, thereby dramatically accelerating its ability to support a variety of programs.

## Support One Of These Programs

The AAPG Foundation provides support of scientific, educational programs including the following:

- Military Veterans Scholarship Program
- Geoscience Educational Initiatives
- L. Austin Weeks Undergraduate Grants
- Grants-in-Aid to Graduate Students
- Graduate Student Competition (Imperial Barrel Award)

## Joining The Trustee Associates

Members of AAPG who are invited by three Trustee Associates are eligible to join by virtue of their \$15,000 contribution to the AAPG Foundation. This contribution may be given over a five-year period and is tax-deductible to U.S. taxpayers, since the AAPG Foundation is a qualified 501(c)(3) public foundation under IRS tax code.

The Trustee Associates meet annually to conduct business meetings and participate in geologic field trips of regional interest. Spouses are encouraged to attend, and interesting activities are planned for their enjoyment. A schedule of past and future meeting sites and dates is included on the Foundation website.

For more detailed information, please contact the AAPG Foundation office at the address below.
