

# IMAGINE A WORLD WITHOUT THE AAPG FOUNDATION....

## Fewer grants to deserving students

Fewer curricula developments and teaching aids for elementary and secondary school students

Less funding for important publications and digital information for students and for those in the industry

Fewer accolades to those who teach, research and discover

Less funding provided for seminars, conventions, lectures and workshops

Your contribution to the AAPG Foundation enables us to continue the wonderful work that geoscientists before us began. Let's keep up the good work.
