

DIGITAL PRODUCTS UNIVERSITY SUBSCRIPTIONS

HOW YOU CAN HELP YOUR ALMA MATER...

Decades of hard-working geologists carefully wrote about their oil and gas discoveries so others could cost effectively explore for hydrocarbons. With a Digital Products University Subscription, faculty and students at your alma mater will have access to over 600,000 pages of maps, publications and geological information at the touch of a computer key.

A one-time tax-deductible gift of \$12,500 to the AAPG Foundation would establish a digital products subscription for the university of your choice, in perpetuity. You, as the donor would be recognized on the personalized access page viewed by students and faculty each time the Digital Library is accessed.
