

Andrés Ruzo Callejas- Geothermal Map of Peru
Grants In Aid Recipient 2011-William E. Gipson Named Grant

Dear friends and family,

I hope this e-mail finds you all doing very well. I have not spoken to some of you in quite a while, and with this e-mail I want to take the opportunity to reconnect and fill you in on what I am currently up to.

I am in the process of completing my Ph.D. in Geophysics at Southern Methodist University (SMU). For my dissertation, I am creating the Geothermal Map of Peru, which is a heat flow map (with associated studies) that will have great significance for economic, scientific, and academic sectors.

In order to further the study, my wife and I will be living and working in Perú for the next few months. To keep everyone updated on the study, our adventures while traveling, and Peruvian recipes you might enjoy, we have created a blog that we invite you to follow at:

<http://andeanmemoirs.tumblr.com/>

Hopefully you will enjoy the blog, updates, and recipes! I look forward to hearing from you, and wish you all the best.

Take care and adiós,
Andrés
