## **Gustavus E. Archie Memorial Grant**

*Petrophysics & Development Geology*

## **Gustavus E. Archie Memorial International Grant**

*Petrophysics & Development Geology by students outside North America*

## **Barrett Family Named Grant**

*Student studying at Kansas State University*

## **Richard W. Beardsley Named Grant**

*Student whose research is related to petroleum exploration in the region of AAPG's Eastern Section or a student enrolled at a college or university located within the geographic boundaries of the Eastern Section*

## **Rodney A. Bernasek Memorial Grant**

*Student studying at University of Nebraska*

## **Don R. Boyd Memorial Grant**

*Student studying at a university located within geographic boundaries of the Gulf Coast Association of Geological Societies*

## **William and Jean Crain Named Grant**

*Student studying at University of Minnesota, Duluth*

## **Ike Crumbly Minorities in Energy Grant**

*Female student and/or a visible ethnic minority.*

## **Herbert G. and Shirley A. Davis Named Grant**

*Student studying at Oklahoma State University*

## **Eastern Section AAPG Named Grant**

*Student whose research is related to petroleum exploration in the region of AAPG's Eastern Section or a student enrolled at a college or university located within the geographic boundaries of the Eastern Section*

## **Lawrence W. Funkhouser Named Grant**

*Student studying at Stanford University*

## **Robert K. Goldhammer Memorial Grant**

## GRANTS - IN - AID (REGULAR PROGRAM)

The AAPG Grants-in-Aid Fund affords AAPG Foundation contributors an opportunity to make a long-term investment, not only in the future of a well-qualified student, but also in the future of petroleum geology as a science and profession.

This program was established in 1956 to support graduate and post-graduate students in the studies related to earth science aspects of the petroleum energy industry, including exploration and development of hydrocarbons and economic sedimentary minerals and relevant applications of environmental geology.

Grants from the Grants-in-Aid Program are awarded in varying amounts up to a maximum of \$3,000. All applications undergo the same review process and are ranked by three members of the Grants-in-Aid Committee. Applicants with the highest average rankings, which are based on various merit criteria and in part, on the financial need, become grant recipients.

## NAMED GRANTS (ENDOWED PROGRAM)

The Named Grants are a special endowed segment of the AAPG Foundation Grants-in-Aid Program, and provide a way to give a gift that will renew itself indefinitely, and at the same time honor either the donor or someone of his or her choosing.

The Named Grants program was initiated in the 1970s when friends of the late Hugh Miser established a memorial fund in the Foundation to award an annual grant. Since that time 71 Named Grant endowments have been created. Grants are awarded annually in amounts ranging from \$500 to \$3,000.

A one-time gift or bequest of \$12,500 will endow an annual grant of approximately \$500 (depending on the rate of return from investment of the endowment). Every \$5,000 added to the endowment will increase the annual grant by about \$200, up to the maximum of \$3,000 per grant.

A company, an institution, an individual or a group of individuals can endow a Named Grant. Several Named Grants have been funded by AAPG members in memory of or in honor of family members or colleagues, and vice-versa. It is also possible for a donor to make a gift or bequest for a Named Grant in his or her own name. Named/Memorial grants established but unfunded after a 3 year time period will be dissolved after notification is provided to the establishing donor(s) and all monies in the "Named Fund" will be transferred to the regular Grants-in-Aid Fund.

## SUPPORTING THE PROGRAM

Your support of the Grants-in-Aid program is important – and may be directed toward either the Regular or the Named Grant Program. Contact the AAPG Foundation office at the address below for details.
